Dear Neighbors,

The Home Owner's Association Board has signed a contract with Industrial Disposal. For those that do use ID, the new prices are effective with your next billing cycle. The new price is $9.95 per month for pickup with no fuel fees; this is guaranteed for two years. Some additional services that are available are recycling for $4.25 per month, and $5.25 for yard waste. New customers will receive this price immediately.

We are going to continue with individual billing per household. There is no requirement to have everyone switch to ID if they prefer another provider.

The contract details can be found here:
